SUMMARY

Enthusiastic Mechanical Engineer with some experience in engineering design and analysis, transitioning to the IT industry with a strong commitment to learning and adaptation. Equipped with a solid understanding of technical concepts and a keen interest in IT solutions. Seeking an entry-level IT position to build on my technical skills and contribute to innovative projects in a dynamic technology environment.

WORK EXPERIENCE

Designation

Feb 2019 - Apr 2020

As a Production Engineer at B B Engineering Works, I was responsible for overseeing product quality, assigning tasks to production workers, and providing technical support. I implemented quality control procedures, optimized workflow efficiency, and addressed technical issues to ensure smooth production operations

PROJECTS

COMPUTERSEEKHO.COM
